

Aditi Anand Jadhav

Associate Software Development Engineer

Full Stack Developer — CI/CD — Cloud Engineer (AWS/GCP)

+91 9322459002 | aditij100@gmail.com | Gurgaon, India | linkedin.com/in/aditi-jadhav-6025b6158

SUMMARY

Associate Software Development Engineer at Publicis Sapient with 1.6 years of experience in full-stack development using ReactJS, Spring Boot, Jenkins, and Docker. Experienced in CI/CD pipelines, containerization, and scalable web applications. Contributed to backend API development, frontend engineering, and cloud deployment. Led an AI-driven malware detection project, strengthening expertise in cybersecurity, machine learning, and data analytics.

EXPERIENCE

Photo Intelligence System — AI-Powered Image Analysis Platform | Publicis Sapient | Present

- Designed an end-to-end AI-powered Photo Intelligence System for batch image analysis, semantic search, and automated photo organization.
- Built React + TypeScript frontend and FastAPI backend with async background processing pipelines.
- Integrated OpenCV, CLIP Transformers, semantic search, duplicate detection, and Docker deployment on Google Cloud Run.

Fraud Detection Service (Natwest Bank) | Publicis Sapient | Feb 2026

- Developed full-stack fraud detection with JWT authentication, RBAC, PostgreSQL, and risk scoring engine.
- Deployed containerized services on AWS EKS with CI/CD using GitHub Actions and AWS services.

Economic Crime Prevention Platform (Lloyds Bank) | Apr 2025 – Jul 2025

- Automated end-to-end testing using Playwright with BDD (Cucumber, Gherkin) and CI/CD integration.

Banking Analytics Platform (Lloyds Bank) | Dec 2024 – Feb 2025

- Built microservices analytics platform with Java, Spring Boot, React, ETL pipelines, and GCP deployment.

PROJECTS

- Android Botnet Detection Using AI (2023): ML malware detection with 92% accuracy and 30% fewer false positives.
- Token System for Bank Operations (2021): Queue-based token system improving customer service efficiency by 25%.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3 | Backend: Spring Boot, FastAPI, Java, Python, PostgreSQL, Microservices, JWT, RBAC | DevOps: Docker, Jenkins, AWS, GCP, CI/CD, GitHub Actions | Testing: JUnit, Cucumber, Playwright | AI/ML: LLMs, CLIP, Computer Vision

EDUCATION

- BTech Information Technology — MKSSS's Cummins College of Engineering for Women, Pune (2020–2024)
- HSC — Indira Gandhi Junior College (2019–2020)
- SSC — Kusumtai High School, Nanded (2017–2018)

CERTIFICATIONS

- Google Cloud Digital Leader — July 2025
- AWS Partner Accreditation (Technical) — Feb 2025
- Cloud Computing Program — IIT Bhubaneswar — May 2022
- Web Development Program — IIT Bombay — Feb 2022
